I have successfully completed the mock job interview assignment as per the given instructions. The following steps were taken to fulfill all requirements:

1. Preparation: I researched common interview questions relevant to my field and prepared appropriate answers. I also created a list of questions to ask the interviewer.

2. Role-Playing: I partnered with a classmate who acted as the interviewer. They were provided with a job description for the position I was 'applying' for.

3. Mock Interview: The interview was conducted in a professional setting, and I dressed appropriately as for a real job interview. The session was recorded for later review.

4. Self-Analysis and Feedback: After the interview, I reviewed the recording and noted areas of strength and improvement. I also obtained feedback from my mock interviewer.

5. Reflection: I have written a reflection on my performance, highlighting areas for development based on self-analysis and received feedback.

6. Submission: This documentation serves as part of the submission package, which includes my preparation notes, feedback summary, and self-reflection.

This assignment has greatly helped in refining my interviewing skills and preparing me for real-world job interview scenarios.
